          Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  score:

DISBASE: Defects in PVRII are a cause of cleft lip/palate-
ectodermal dysplasia syndrome (CLPED1) [MIM:225000]. CLPED1 is 
responsible for allelic forms known as Margarita island ectodermal 
dysplasia [MIM:225060] and Zlotogora-Ogur syndrome.

SIMILARITY: Contains 1 immunoglobulin-like V-type domain.
SIMILARITY: Contains 2 immunoglobulin-like C2-type domains.
